These terms and conditions together with the documents referred to in them set out the terms of use ("T&Cs") on which (a) an Issuer; (b) Investor; or (c) any other User, may make use of the Site. SECTION A. INVESTOR T&Cs

1. DIRECTORY SERVICES

The Site is intended to provide you with certain information from Issuers regarding the self-certification of their Products as labelled covered bonds. The requirements of the Covered Bond Label Convention are intended to increase transparency, improve investor access to information, and improve liquidity in covered bonds, but they are not a substitute in any way for each User's independent investment and credit evaluation

The Product Information on this Site is provided for your convenience only, and does not constitute any form of credit rating, an offer to sell (or the solicitation of an offer to purchase) any Product, nor does it constitute a recommendation, or investment advice (or any other type of advice) upon which reliance should be placed.

Users shall exercise independent judgment when viewing the Site and its contents, to make their own investigations and evaluations of the information contained on this Site or accessible through it, and to consult their own attorney, business adviser, tax adviser, and/or any other professional necessary, as to legal, business, tax and investment-related matters concerning the Products and Product information contained on this Site. Completion of the relevant self-certification automated process by the Issuer will lead to the grant of the Covered Bond Label. The grant of such label is entirely within the control of the relevant Issuer, and we do not independently verify whether such Issuer complies with the relevant criteria. The existence of a Covered Bond Label does not represent any opinion by us about the creditworthiness of a Product, the value or price of a Product, the appropriateness of a Product's terms, or the Product's future investment performance. Nothing contained on this Site is intended to predict or project future performance.

We make no representation that the Products which are featured on the Site are suitable for you and we disclaim all liability and responsibility arising from any reliance placed on any Product Information or on the Covered Bond Label by any visitor to the Site, or by anyone who may be informed of any of its contents.

Field	4 Clause Charles Harman and Harman	
Number	1. Glossary - Standard Harmonised Items	Definition
HG.1.1	OC Calculation: Statutory	Statutory Overcollateralisation is the overcollateralisation percentage required to be provided by each Issuer and included/disclosed in the national covered bond framework.
HG.1.2	OC Calculation: Contractual	Contractual Overcollateralisation is the overcollateralisation percentage each Issuer has contractually agreed to maintain pursuant to the covered bond programme documents.
HG.1.3	OC Calculation: Voluntary	Voluntary Overcollateralisation is the difference (if positive) between the actual overcollateralisation provided by an Issuer and the higher of the contractual and statutory overcollateralisation.
HG.1.4	Interest Rate Types	Cover Assets: fixed until maturity and fixed with a periodic reset. Covered Bonds: fixed
HG.1.5	Residual Life Buckets of Cover assets [i.e. how is the contractual and/or expected residual life defined? What assumptions eg, in terms of prepayments? etc.]	For the buckets concerning 'Residual Life' (G.3.4), we take into account all monthly principal payments, comparable to tabs 0.9 and 0.10. This is consistent with the G.3.4 title "Cover Pool Amortisation Profile". Hence, we do not use maturity buckets for Cover Assets. Further, no prepayments are taken into account.
	Maturity Buckets of Covered Bonds (i.e. how is the contractual and/or expected maturity defined? What maturity structure (hard bullet, soft bullet, conditional pass through)? Under what	
HG.1.6 HG.1.7	conditions/circumstances? Etc.] Maturity Extention Triggers	Belgian allows for "Failure to pay" and "Default"
NG.1.7	·	As Belgium has general mortgages, we calculate LTV as the total borrower outstanding over the total borrower property value, resp. not indexed
HG.1.8	LTVs: Definition	(M.7A.11) and indexed (M.7A.12)
HG.1.9	LTVs: Calculation of property/shipping value LTVs: Applied property/shipping valuation techniques, including whether use of index, Automated Valuation Model (AVM) or on-site audits	Property values are those used in the loan underwriting procedure Yearly updates of the property values are done using a national index calculated by the national institute of statistics in Belgium (StatBel).
HG.1.11	LTVs: Frequency and time of last valuation	Indexation is done on a yearly basis
HG.1.12	Explain how mortgage types are defined whether for residential housing, multi-family housing, commercial real estate, etc. Same for shipping where relecvant	We filled in ND2 because the features of M.7A.13 refer to the underlying property and, because Belgium has general mortgages, it can not be applied to individual loans as all properties cover for all loans.
HG.1.13	Hedging Strategy (please explain how you address interest rate and currency risk)	Interest rate risk is monitored using NPV tests described by the regulator (NBB). Hedging is currently done with overcollateral. There remains the possibility to use swaps, as described in the Belgian covered bond legislation. No currency risk is expected as both assets and liaibilities are in euro.
HG.1.14	Non-performing loans	Loans that are more than 90 days past due.
HG 1 15	Valuation Method	Sale price of the properties is compared to the a statistical pricing model for Belgium. When the sale price is higher than the top range of the model outcome, an expert valuation is done.
OHG.1.1	NPV assumptions (when stated)	The current interest is used; no parrallel shift of the interest rate curve is asssumed.
