#### TERMS OF USE

This website www.coveredbondlabel.com (the "Site") is owned and operated by the Covered Bond Label Foundation (the Covered Bond Label Foundation together with its affiliates, "we" or "us") a Private Foundation (fondation privée / private stichting) registered in Belgium; whose registered office is at Rue de la Science 14 - 1040 Brussels - Belgium and registered under number 500.950.659 (RPR/RPM Brussels).

The Site is intended for use as a directory of information relating to certain covered bond products ("Products") (the "Product Information") by an issuer of ("Issuer"), or potential investor in ("Investor"), such Products (an Issuer, Investor, or any other person accessing this Site, each a "User" or "you"). The Product Information is provided by each relevant Issuer, and remains at all times the sole responsibility of the relevant Issuer. We have not independently verified any Product Information, nor reviewed whether any Product for which information is available on the Site actually is a covered bond product. This Site or any label made available through it does not constitute, nor contain, any form of credit rating, any offer to sell (or the solicitation of an offer to purchase) any Product, nor does it constitute a recommendation, or investment advice (or any other type of advice) upon which reliance should be placed.

These terms and conditions together with the documents referred to in them set out the terms of use ("T&Cs") on which (a) an Issuer; (b) Investor; or (c) any other User, may make use of the Site. Section A applies primarily to Investors, and Section B applies primarily to Issuers. The General T&Cs in Section C apply to all Users.

#### SECTION A. INVESTOR T&Cs

#### 1. DIRECTORY SERVICES

The Site is intended to provide you with certain information from Issuers regarding the self-certification of their Products as labelled covered bonds. The requirements of the Covered Bond Label Convention are intended to increase transparency, improve investor access to information, and improve liquidity in covered bonds, but they are not a substitute in any way for each User's independent investment and credit evaluation.

The Product Information on this Site is provided for your convenience only, and does not constitute any form of credit rating, an offer to sell (or the solicitation of an offer to purchase) any Product, nor does it constitute a recommendation, or investment advice (or any other type of advice) upon which reliance should be placed.

Users shall exercise independent judgment when viewing the Site and its contents, to make their own investigations and evaluations of the information contained on this Site or accessible through it, and to consult their own attorney, business adviser, tax adviser, and/or any other professional necessary, as to legal, business, tax and investment-related matters concerning the Products and Product Information contained on this Site. No information contained on the Site should be construed as legal, tax, investment, or accounting advice.

Product Information is incorporated into the directory on the Site following the completion of an automated process conducted by the relevant Issuer. The proper conduct of that process and the accuracy and completeness of the Product Information supplied during that process remain at all times the responsibility of the relevant Issuer. While the Product Information contained on the Site is displayed by us in good faith, no representation is made by us as to its completeness or accuracy. PRODUCT INFORMATION IS DISPLAYED ON THE SITE "AS IS" AND HAS NOT BEEN INDEPENDENTLY VERIFIED BY US. BY YOUR USE OF THE SITE, YOU AGREE THAT WE HAVE NO LIABILITY WHATSOEVER REGARDING THE ACCURACY OF COMPLETENESS OF THE PRODUCT INFORMATION ON THIS SITE. Inclusion of Product Information in the directory on the Site does not constitute a warranty or representation by us that the Product is a covered bond product or complies with any particular criteria or regulations.

Completion of the relevant self-certification automated process by the Issuer will lead to the grant of the Covered Bond Label. The grant of such label is entirely within the control of the relevant Issuer, and we do not independently verify whether such Issuer complies with the relevant criteria. The existence of a Covered Bond Label does not represent any opinion by us about the creditworthiness of a Product, the value or price of a Product, the appropriateness of a Product's terms, or the Product's future investment performance. Nothing contained on this Site is intended to predict or project future performance.

We make no representation that the Products which are featured on the Site are suitable for you and we disclaim all liability and responsibility arising from any reliance placed on any Product Information or on the Covered Bond Label by any visitor to the Site, or by anyone who may be informed of any of its contents.

From time to time we may make changes to the Site that we feel are appropriate (see Section C, para 3 below).

The definitions below reflect the national specificities

Field		
Number	1. Glossary - Standard Harmonised Items	Definition
HG.1.1	OC Calculation: Statutory	Statutory Overcollateralisation is the overcollateralisation percentage required to be provided by each Issuer and included/disclosed in the national covered bond framework.
HG.1.2	OC Calculation: Contractual	Contractual Overcollateralisation is the overcollateralisation percentage each Issuer has contractually agreed to maintain pursuant to the covered bond programme documents.
HG.1.3	OC Calculation: Voluntary	Voluntary Overcollateralisation is the difference (if positive) between the actual overcollateralisation provided by an Issuer and the higher of the contractual and statutory overcollateralisation.
HG.1.4	Interest Rate Types	Cover Assets: fixed until maturity and fixed with a periodic reset. Covered Bonds: fixed
HG.1.5	Residual Life Buckets of Cover assets [i.e. how is the contractual and/or expected residual life defined? What assumptions eg, in terms of prepayments? etc.]	For the buckets concerning 'Residual Life' (G.3.4), we take into account all monthly principal payments, comparable to tabs 0.9 and 0.10. This is consistent with the G.3.4 title "Cover Pool Amortisation Profile". Hence, we do not use maturity buckets for Cover Assets. Further, no prepayments are taken into account.
	Maturity Buckets of Covered Bonds [i.e. how is the contractual and/or expected maturity	
	defined? What maturity structure (hard bullet, soft bullet, conditional pass through)? Under what	At the moment, only soft bullet has been issued. We only take into account the Maturity Date, not the Extended Maturity Date
HG.1.6 HG.1.7	conditions/circumstances? Etc.] Maturity Extention Triggers	Belgian allows for "Failure to pay" and "Default"
HG.1.7	Maturity Extension Inggers	As Belgium has general mortgages, we calculate LTV as the total borrower outstanding over the total borrower property value, resp. not indexed
HG.1.8	LTVs: Definition	(M.7A.11) and indexed (M.7A.12)
HG.1.9	LTVs: Calculation of property/shipping value	Property values are those used in the loan underwriting procedure
HG.1.10	LTVs: Applied property/shipping valuation techniques, including whether use of index, Automated Valuation Model (AVM) or on-site audits	Yearly updates of the property values are done using a national index calculated by the national institute of statistics in Belgium (StatBel).
HG.1.11	LTVs: Frequency and time of last valuation	Indexation is done on a yearly basis
HG.1.12	Explain how mortgage types are defined whether for residential housing, multi-family housing, commercial real estate, etc. Same for shipping where relecvant	We filled in ND2 because the features of M.7A.13 refer to the underlying property and, because Belgium has general mortgages, it can not be applied to individual loans as all properties cover for all loans.
110.2.22	commercial real estate, etc. same for suppling where recevant	
HG.1.13	Hedging Strategy (please explain how you address interest rate and currency risk)	Interest rate risk is monitored using NPV tests described by the regulator (NBB). Hedging is currently done with overcollateral. There remains the possibility to use swaps, as described in the Belgian covered bond legislation. No currency risk is expected as both assets and liaibilities are in euro.
HG.1.14	Non-performing loans	Loans that are more than 90 days past due.
HG.1.15	Valuation Method	Sale price of the properties is compared to the a statistical pricing model for Belgium. When the sale price is higher than the top range of the model outcome, an expert valuation is done.
OHG.1.1	NPV assumptions (when stated)	outcome, an expert variation is done.  The current interest is used in, on parallel shift of the interest rate curve is asssumed.
